Belgrade, Čika-Ljubina 8 [Google map](#)

### Offer

## Serbia

Serbia connects the West with the East, making it a meeting point and crossroads of different civilizations, cultures, religious communities and landscapes.

Serbia is located in southeastern Europe in the central part of the Balkan Peninsula. The northern part of the country belongs to Central Europe, geographically and climatically, Serbia is partly a Mediterranean country. Serbia is a continental country but the Danube creates a connection with distant seas.
